

Tree&stamRack

Tree&stamRack is an easily movable presentation rack for trees and stem crops, and is of great importance to the flow of sales in retail.

What are the most important reasons to start using Tree&stamRack?

- You can present your most important trees and stem crops in the best commercial spot.
- When presented in the Tree&stamRack, **your trees and crops stay fresh and healthy much longer.**
- Tree&stamRack is not heavy, is easily movable and you don't even need to attach it to your floor.
- **All sizes and shapes of pots can be used in Tree&stamRack.**
- Because of the flexibility of Tree&stamRack, it is very windproof.
- The wires and sheet metal have been coated with a high-quality zinc layer, which ensures longevity.
- The soft tree-binders prevent damage to the stems during rough winds.

Tree&stamRack – Medium:

- With a length of 1.60m the Tree&stamRack Medium fits in most (lowered) selling tables.
- In combination with the Side Supports, Tree&stamRack Medium is also suitable for presenting climbing ivy and all types of stem crops.
- The side supports can be easily attached and removed.
- The basic set is equipped with 10 pieces of soft binders.
- The side supports are equipped with 3 plastic clips per support.

Tree&stamRack – Large:

- Tree&stamRack Large is meant for taller trees, depending on the size of the tree.
- The length of Tree&stamRack Large is 2m, and its height is 1.5m
- Tree&stamRack Large is equipped with 8 soft binders, 4 binders on each side.
